ownCloud Tech Talk on Kubernetes Deployment, Performance, and Load Testing

Wednesday 13 March 2024 12:00 (15 minutes)

We share experiences running the microservices-based ownCloud Infinite Scale software with many instances in a highly scalable virtual architecture.

The second part covers motivation, architecture and results of load testing with K6.

Primary author: FREITAG, Klaas (ownCloud)

Presenter: FREITAG, Klaas (ownCloud)

Session Classification: Technology Bricks: Testing and Resilience

Track Classification: Main sessions: Technology & Research
