Digital repositories for FAIR data management

Tuesday, 12 March 2024 14:00 (15 minutes)

The presentation will give an overview over existing and upcoming FAIR-enabling features in Zenodo and InvenioRDM. Zenodo has through the collaboration with Plazi built up the Biodiversity Literature Repository as a prime example of FAIR data management with domain specific metadata in a general-purpose repository. Zenodo will further soon launch a Zenodo-community together with the European Commission with will add further FAIR-enabling features into Zenodo.
