

1st COMETA General Meeting

Thursday 29 February 2024

Short Talks Session - Education Hall (18:00 - 19:30)

-Conveners: Richard Ruiz; Richard Ruiz

time	[id] title	presenter
18:00	[5] NLO EW corrections to polarised $W^+ W^-$ production and decay at the LHC	HAITZ, Christoph
18:12	[7] Polarised cross sections for vector boson production with SHERPA	HOPPE, Diana Mareen
18:24	[2] Triboson production in the SMEFT	CELADA, Eugenia
18:36	[8] A parton-level study on dimension-6 EFT operators in electroweak boson scattering processes at the LHC	PIZZATI, Giorgio
18:48	[9] CMS Vector Boson Scattering SM combination and EFT at dimension-6 in the $l\nu qq$ decay channel	Mr BOLDRINI, Giacomo
19:00	[4] Quantum Collider probes of the fermionic Higgs Portal	SCHMID, Konstantin
19:12	[6] An Anomaly Detection strategy for new physics searches at the LHC	LAVIZZARI, Giulia
