

Frankfurt am Main, February 2025  
Quark Matter 2025 - Fifth circular

Dear Colleagues,

with this fifth circular for the XXXI International Conference on Ultra-relativistic Nucleus-Nucleus Collisions, "Quark Matter 2025", we would like to give you an update on the status quo and make you aware of some important deadlines.

The plenary program has been finalized, and we are in the process of finalizing the parallel program as well. Please see <https://indico.cern.ch/event/1334113/timetable/#20250411> for details. In particular, if you will present a plenary or parallel talk, please check when your talk is scheduled and make sure that you **upload your presentation on indico until the evening the day before your talk**.

The deadline for registration (February 7th, 2025) has passed and scientists interested in participating should by now have registered for the conference on indico. Senior researchers should also make sure to pay the registration fee (via ConfTool) **no later than February 14, 2025**. We are currently processing the requests for Early-Career Researcher Support and expect to send notifications until February 14, 2025. Due to this delay, the deadline for payment of the (reduced) conference fee for Early-Career Researchers has been moved to **February 21, 2025**.

If you have registered and paid the conference fee, but have to cancel your participation due to unforeseen reasons, you are eligible for a full refund of the conference fee if your cancellation notice reaches us until **February 28, 2025**. After this date, no refund can be given, as we have to fulfill our financial commitments.

We are currently organizing child-care services during the conference. As mentioned in the 4th circular, interested participants should have notified us at [qm2025@itp.uni-frankfurt.de](mailto:qm2025@itp.uni-frankfurt.de) already by February 7, 2025. We will extend this deadline until **February 21, 2025**.

Please do not hesitate to contact us at [qm2025@itp.uni-frankfurt.de](mailto:qm2025@itp.uni-frankfurt.de) if you need additional information or support in preparing your participation in the Quark Matter 2025 conference.

We are looking forward to welcoming you in Frankfurt!

With best regards,

Harald Appelshäuser, Tetyana Galatyuk, and Dirk Rischke  
(chairs of the QM2025 conference)
