

Session Program

20-22 May 2024

Loopfest XXII

Session 6

Dallas Texas USA, Fondren Science Building 123
3215 Daniel Avenue Fondren Science Building Southern Methodist University Dallas, TX 75275-0175

Tuesday 21 May

14:00

Session 6

Session |

Location: Dallas Texas USA, Fondren Science Building 123, 3215 Daniel Avenue Fondren Science Building Southern Methodist University Dallas, TX 75275-0175 |

Convener: Ted Rogers

14:00-14:30

Identifying regions for asymptotic expansions in QCD

Speaker

Yao Ma

14:35-15:05

Resummation of small-momentum logarithms for lattice calculation of GPDs in the large momentum effective theory

Speaker

Rui Zhang

15:10-15:55

Amplitude methods for gravitational interactions

Speaker

Radu Roiban

16:00-16:10

Concluding remarks

Speaker

Prof. Pavel Nadolsky

16:10
