Test beam results from DMAPS produced in LF110 and TSI 180

Tuesday 28 November 2023 11:20 (20 minutes)

The PSI HEP group has designed and produced test devices of DMAPS in two different technologies: Motic in LF 110 and TSI-R4S in TSI 180. The talk reports on the status of these projects including results from test beam campaigns at DESY.

Authors: ROHE, Tilman (Paul Scherrer Institute (CH)); EBRAHIMI, Aliakbar (Paul Scherrer Institute (CH)); BURKHALTER, Stephan Tobias (ETH Zurich (CH)); KAESTLI, Hans-Christian (Paul Scherrer Institute (CH)); MEIER, Beat (Paul Scherrer Institute (CH)); ERDMANN, Wolfram (Paul Scherrer Institute (CH))

Presenter: ROHE, Tilman (Paul Scherrer Institute (CH))
