

A scenic view of a valley with a lake and mountains in the background, with a goat on a rocky outcrop in the foreground.

# Welcome to CERN!

June 17<sup>th</sup> 2024

On behalf of all the CERN-CKC TH Institute Organisers

# Logistics

For the schedule please check the Indico page regularly, in case of any last-minute changes.

Coffee is in the TH coffee room, opposite the secretariat, between talks in the morning and after lunch in the afternoon. (This Thurs on mezzanine.)

We won't have any reception, but instead encourage you to join the “unsponsored gatherings” in Restaurant 1 on Monday and Friday evenings!

# Logistics

We have tried our best to find a desk for as many participants as possible. If needed, the newly renovated library (both floors) and R1 can serve as alternative work spaces.

We have a fantastic mix of theorists at all career stages, so please do take full advantage by getting to know the other participants and their research!

P.s. Speakers: When you get a chance please send us your talk titles and, ideally, upload your slides directly to Indico. (Abstracts optional.)
