

4th EuCAPT Annual Symposium

Tuesday 14 May 2024

Late Universe - 500/1-001 - Main Auditorium (09:30 - 10:30)

-Conveners: Ruth Durrer

time	[id] title	presenter
09:30	[129] Galaxy clustering in the era of Stage IV surveys	MUELLER, Eva-Maria
10:00	[130] Line intensity mapping and the physics of cosmic reionization	Dr PADMANABHAN, Hamsa

Late Universe - 500/1-001 - Main Auditorium (11:15 - 12:30)

-Conveners: Ruth Durrer

time	[id] title	presenter
11:15	[132] Lensing of the Cosmic Microwave Background , synergies with galaxy surveys and AOB	Dr FABBIAN, Giulio
11:47	[18] A model-independent test of gravity from the Weyl potential evolution	GRIMM, Nastassia
11:54	[76] Cosmology from ACT DR6 lensing cross-correlated with DES Y3 galaxies	DARWISH, Omar
12:01	[90] Probing the LCDM Universe with 21cm intensity mapping surveys	BERTI, Maria
12:08	[53] The Hitchhiker's Guide to the Galaxy (peculiar velocities)	SORRENTI, Francesco
12:15	[74] Modified Gravity vs Dark Interactions: Settling the Dispute through the Distortion of Time	CASTELLO, Sveva
12:22	[48] The full-sky Spherical Fourier-Bessel power spectrum in general relativity	SEMENZATO, Federico
