

**Session Program**

**20-25 Oct 2024**

**Blois 2024: 35th Rencontres de Blois on  
"Particle Physics and Cosmology"**

***Parallel Session Wednesday - Flavour***

Gaston d'Orléans

# Wednesday 23 October

16:30

## Parallel Session Wednesday - Flavour

**Session** | **Location:** Marguerite de Valois | **Convener:** Bolek Pietrzyk

16:30–16:50 **Recent results from the NA62 experiment at CERN**

**Speaker**

Letizia Peruzzo

16:50–17:10 **Recent measurements of the CKM angle  $\gamma$  at LHCb**

**Speaker**

Fidan Suljik

17:10–17:30 **Antihelium production in  $\bar{\Lambda}_b^0$  decays**

**Speaker**

Hendrik Jage

17:30–17:50 **Measurements of  $\tau$  decays at Belle and Belle II**

**Speaker**

Paolo Leo

17:50–18:10 **Charm physics at Belle and Belle II**

**Speaker**

Cristina Martellini

18:10–18:30

**Measurements of electroweak penguin and radiative  $B_s$  decays at Belle and Belle II**

**Speaker**

Niharika Rout

18:30–18:50

**Studies of scalar and vector mesons in the charmed hadron decays at BESIII**

**Speaker**

Bai-Cian Ke

18:50–19:10 **Flavour deconstructing the composite Higgs**

**Speaker**

Marko Pesut

19:10
