

## Math Libs developments and restructure

*Monday, 26 March 2007 14:30 (30 minutes)*

An overview of the recent developments, compared to the last workshop, of the ROOT Math libraries will be presented. The functionality and the design of the new Math packages will be described in detail together with the planned improvements and re-structuring of the previously existing ROOT classes to use the new mathematical algorithms.

**Presenter:** MONETA, Lorenzo (CERN/SFT)
