Moving a data center keeping availability at the top

Thursday 24 October 2024 15:00 (18 minutes)

We are moving INFN-T1 data center to a new location. In this presentation we will describe all the steps taken to complete the task without decreasing the general availability of the site and of all the services provided. We will also briefly describe the new features of our new data center compared to the current one.

Primary authors: PASCOLINI, Alessandro (Universita e INFN, Bologna (IT)); Mr CHIERICI, Andrea (Universita e INFN, Bologna (IT)); MICHELOTTO, DIEGO (INFN - National Institute for Nuclear Physics); CESINI, Daniele (Universita e INFN, Bologna (IT)); LATTANZIO, Daniele; SERGI, Giusy (INFN - CNAF); Mr SCARPONI, Luigi (INFN); ZANI, Stefano; Dr SAPUNENKO, Vladimir (INFN-CNAF)

Presenter: LATTANZIO, Daniele

Session Classification: Parallel (Track 7)

Track Classification: Track 7 - Computing Infrastructure
