## 12th International Conference on Hard and Electromagnetic Probes of High-Energy Nuclear Collisions

## Monday, 23 September 2024

## Parallel Session 1 (14:00 - 16:00)

time	[id] title	presenter
14:00	[155] Radius dependent jet quenching measurements from ATLAS	ANGERAMI, Aaron
14:20	[153] Jet substructure measurements with small and large radius jets with ATLAS	ANGERAMI, Aaron
	[55] Jet fragmentation and substructure correlations in pp and PbPb at \$\sqrt{s_{\rm NN}}\$ = 5.02 TeV with ALICE	COLLABORATION, ALICE
15:00	[70] Isolating perturbative QCD splittings in heavy-ion collisions	TAKACS, Adam SOTO-ONTOSO, Alba Dr PABLOS, Daniel CUNQUEIRO MENDEZ, Leticia VERWEIJ, Marta SPOUSTA, Martin
15:20	[37] Probing hadronization and quark-gluon plasma using collinear-drop jet observables at RHIC	Dr CHIEN, Yang-Ting
15:40	[306] Leading order, next-to-leading order, and non-perturbative parton collision kernels: Effects on the jet substructures	Dr SHI, Shuzhe
