

# 12th International Conference on Hard and Electromagnetic Probes of High-Energy Nuclear Collisions

## Monday 23 September 2024

### Parallel Session 6 - Room 102 (16:30 - 18:30)

time	[id] title	presenter
16:30	[219] Elliptic flow measurements of light and heavy flavor hadrons, and $J/\psi$ in Au+Au collisions at forward rapidity with PHENIX	VELKOVSKA, Julia
16:50	[51] Characterisation of heavy-quark propagation and thermalisation in QGP with ALICE	ZHANG, Biao
17:10	[170] Measurement of collective flow of $D_{\perp}$ and $D^0$ meson with CMS at 5.02 TeV	SAHA, Nihar Ranjan
17:30	[188] Fluid-dynamic approach to heavy-quark diffusion in the quark-gluon plasma	CAPELLINO, Federica
17:50	[49] Investigating of charm-quark hadronisation into baryons and its collision-system dependence with ALICE	ZANONE, Federica
18:10	[236] Recent LHCb probes for b-quark hadronization studies	BERKEY, Julie Lane Marie
