

12th International Conference on Hard and Electromagnetic Probes of High-Energy Nuclear Collisions

Monday 23 September 2024

Parallel 7: early time dynamics - Room 103 (16:30 - 18:30)

-Conveners: Aleksas Mazeliauskas

time	[id] title	presenter
16:30	[231] Measurement of $dE_T/d\eta$ in Au+Au collisions at 200 GeV with sPHENIX at RHIC	Dr NUKAZUKA, Genki
16:50	[254] Quantifying the degree of hydrodynamic behaviour in heavy-ion collisions	WERTHMANN, Clemens
17:10	[245] A Unified Adiabatic Description of Hydrodynamization in Kinetic Theory	STEINHORST, Rachel
17:30	[110] Jet momentum broadening beyond the jet quenching parameter from QCD kinetic theory	LINDENBAUER, Florian
17:50	[94] Jet quenching in the glasma stage of heavy-ion collisions	Dr SADOFYEV, Andrey
18:10	[244] Evolution of QCD jets in non equilibrium plasmas	BARRERA CABODEVILA, Sergio
