

12th International Conference on Hard and Electromagnetic Probes of High-Energy Nuclear Collisions

Tuesday 24 September 2024

Parallel 15: heavy quarks, spin polarization - Room 103 (10:50 - 12:30)

-Conveners: Ramona Vogt

time	[id] title	presenter
10:50	[255] A potential approach to the χ (3872) thermal behaviour	LÓPEZ PARDO, Víctor
11:10	[168] Measurements of χ_c production in pPb collisions with CMS	KIM, Jeongho
11:30	[85] Quarkonium polarization in hadronic collisions with ALICE	XIONG, Zhenjun
11:50	[52] Investigation of charm hadronisation and early magnetic field in ultrarelativistic heavy-ion collisions via D^{*+} -meson spin alignment with ALICE	LI, Mingze
12:10	[84] J/ψ photoproduction and polarization in peripheral Pb-Pb collisions with ALICE	ARSENE, Ionut Cristian
