

# Day of Femtoscopy (A femtoszkópia napja)

## Monday 30 October 2023

**Diffraction at TeV energies: Odderon and single diffractive dissociation at LHC - Part 2 - Rector's Council Room, Floor 1, main building (11:00 - 12:30)**

time	[id] title	presenter
11:00	[38] Model independent Odderon results based on TOTEM data at 8 TeV	STER, Andras
11:30	[56] Levy alpha-stable model for the non-exponential low -t region of elastic pp scattering	SZANYI, István
12:00	[61] Detailing the Odderon effect with numerical examples at 8 TeV	NOVAK, Tamas
