

# ECFA

European Committee for Future Accelerators

**ECFA-ECR panel meeting**  
10th November 2023

# Introduction

# RECFA/PECFA delegates

Role: Join PECFA/RECFA meetings to represent ECR view, update them on our activities.

- PECFA: discuss and decide on all ECFA activities. (up to 5 ECR delegates)
- RECFA: advisory board to help shape the ECFA programme. (1 ECR delegate: Lydia)
- *Two more spaces open from January*
  - *Henning is moving to be a full PECFA member at the year's end (congrats!)*
  - *Eleonora is leaving the ECR panel*

***anyone else would like to take on this important role?***

**Lydia Brenner**  
(Nikhef)

**Eleonora Diociaiuti**  
(INFN, Frascati)

**Henning Kirschenmann**  
(University of Helsinki)

**Armin Ilg**  
(University of Zurich)

Please send your  
(self-)nomination to:  
[ecfa-ecr-organisers@cern.ch](mailto:ecfa-ecr-organisers@cern.ch)

# Organisation committee

Responsibilities for the organisation committee are:

- organize and prepare ECFA-ECR panel meetings
- chairing and minutes taking for meetings
- managing ECFA-ECR mailing list ( [ecfa-ecr@cern.ch](mailto:ecfa-ecr@cern.ch) ) & mattermost ( <https://mattermost.web.cern.ch/ecfa-ecrs> )
- serve as point of contact for public correspondence

Please contact us for any issue/question via

[ecfa-ecr-organisers@cern.ch](mailto:ecfa-ecr-organisers@cern.ch)

**Holly Pacey**  
(University of Oxford)

**Valentina Zaccolo**  
(University and INFN, Trieste)

**Jan-Hendrik Arling**  
(DESY)

*Please also consider to join the OC!*

*From January 2024, Valentina finishes her mandate - please consider helping us!*

# End of year report

The ECFA ECR panel wanted to publish regular reports about the work in the style of end-of-year reports summarizing the activities in the respective year.

- last year: [published](#) the work of the first iteration of the panel in the years 2021/22 (much broader content, e.g. description of organization structure)

Start collecting inputs now, e.g.

- FCC Week [ECR Session](#) in June
- Hosted [workshop](#) “Future Colliders for Early-Career Researchers” at CERN in September
- ...

OC will start preparing a draft and looks then for volunteers to write the different sections

- if you would like to join, let us know :)
- perhaps 1 volunteer from each WG could write about their work?

# Future Collider job mailing list

Some discussion with Kamil Augsten over summer. Idea:

- Create an [ecfa-ecf-jobs@cern.ch](mailto:ecfa-ecf-jobs@cern.ch) mailing list that panelists/ecrs can subscribe to
- which would forward any announcements of jobs which relate to future collider research.
- Or, is there a different variation on this idea that would work better?

*What do you all think?*

# Today's meeting

- Report from RECFA/PECFA delegates
  - next PECFA meeting: [16/17th November](#)
- Status reports from active working groups
  - WG: Future Colliders
  - WG: Software and Machine Learning Applications for Instrumentation
  - WG: Career Prospects and Diversity in Physics
- AOB
  - End of 2023 ECFA Panel report
  - Next meeting date?
  - job ad resources?
