

The CERN Accelerator School

The CERN Accelerator School turns 40

19.1.2024

A BIG Thank You!!! to our lecturers

- Celebrate the occasion of **40th CAS Anniversary**
- First CAS Course October 1983 “Antiprotons for Colliding Beam Facilities”
- About **90 CAS courses** held **so far**
- Would **never** be **possible without** your dedication and engagement as high-level expert **CAS lecturers**
- Many things have changed over the last 40 years in accelerator physics and technology and the CAS courses
- One thing stays:
CAS lives from the active participation of our lecturers!

Thank You!!!
