

7th Rucio Community Workshop

Contribution ID: 12

Type: not specified

CMS Rucio Community Report

Monday 30 September 2024 11:20 (20 minutes)

This presentation seeks to provide an overview of the operational and infrastructural aspects of Rucio as utilised by the CMS Experiment.

We will discuss the current status of Rucio within CMS, highlighting key operational metrics, system performance, and the challenges encountered. Additionally, we will explore ongoing developments and efforts to support the data management needs of the CMS Experiment.
