

The Flavour Path to New Physics

Wednesday 5 June 2024 - Friday 7 June 2024

University of Zurich

Scientific Programme

Main topics of the workshop:

Recent results in flavour physics

Updated on SM predictions for key flavour observables

Flavour physics beyond the SM: general ideas and EFT approaches

New model-building directions

Flavour physics vs. Higgs hierarchy problem

Neutrino physics & LFV

ALPs

See the timetable for more details
