The Flavour Path to New Physics

Wednesday 5 June 2024 - Friday 7 June 2024
University of Zurich

Scientific Programme

Main topics of the workshop:

Recent results in flavour physics
Updated on SM predictions for key flavour observables
Flavour physics beyond the SM: general ideas and EFT approaches
New model-building directions
Flavour physics vs. Higgs hierarchy problem
Neutrino physics & LFV
ALPs

See the timetable for more details
