

Session Program

4-8 Dec 2023

Zimanyi Winter School

Other topics

Monday 4 December

11:15

Other topics

Session | Location:

11:15–11:45

Tests of CPT invariance at the CERN Antimatter Factory

Speaker

Dezso Horvath

11:45–12:05

Pion observables calculated in Minkowski and Euclidean spaces with Ansatz quark propagators

Speaker

Dubravko Klabucar

12:05–12:25

Wilsonian renormalization group flows are generated by ordinary distributions

Speaker

Andras Laszlo

12:25
