

**Session Program**

**4-8 Dec 2023**

**Zimanyi Winter School**

***Intermediate energies***

# Wednesday 6 December

09:00

## Intermediate energies

Session | Location:

09:00–09:30

**Opportunities for HIC at FRIB energies: symmetry energy and in-medium correlations**

**Speaker**

Giuseppe VERDE

09:30–10:00

**The status of EoS studies with HIC at GSI and implications on neutron stars and gravitational waves (online)**

**Speaker**

Arnaud Le Fèvre

10:00–10:30

**FAZIA: a new generation array for nuclear dynamics and EoS experiments at intermediate energies**

**Speakers**

Simone Valdre<sup>1</sup>, Simone Valdré

10:30–10:45

**The OSCAR correlation array for low energy structure and dynamics**

**Speaker**

Luigi Redigolo

10:45
