

# Zimanyi Winter School

## Thursday 7 December 2023

### Photons, dileptons (10:35 - 12:20)

time	[id] title	presenter
10:35	[51] Study of high pT and direct photon in small system collisions at 200 GeV	SUN, Zhandong
10:55	[52] Analysis of $\pi^0$ & direct photon in the large 2014 200 GeV Au+Au /PHENIX dataset	ABDUALMEER, Nour
11:10	[53] Describing the direct photon spectra of Au+Au @ 200 GeV collisions with a new analytic formul	KASZA, Gábor
11:25	[54] $\pi^0$ and eta analysis on Run16 Au+Au collision at 200GeV	OROSZ, Melinda
11:40	[55] Incoherent processes in dilepton production in proton-nucleus scattering	Dr MAYDANYUK, Sergei
12:00	[56] Polarization effects in processes of dimuon production at LHC and NICA	SHALAEV, Vladislav
