One Year of Running CTA at DESY

Monday, 18 March 2024 11:15 (15 minutes)

CTA has been in production at DESY for almost an year, with dCache as the frontend. Over the course of this time we have migrated all our data from OSM, moved all experiments to CTA and so far written close to 25PB of data. In this talk we give an overview of the past year and share our overall experience with CTA.
