

GB-RADNEXT Workshop 2024

Wednesday, 12 June 2024

Session 2: Atmospheric Industrial Session (14:00 - 15:55)

time	[id] title	presenter
14:00	[54] Session introduction	KASTRIOTOU (STFC-ISIS), Chair: Maria
14:05	[28] Talk 1: Current capabilities and future requirements in radiation testing in Europe	BENDER (INFINEON), Philipp
14:25	[31] Talk 2: Temperature dependence of Cosmic Ray failure mechanism in the SiC Power MOSFET (UK - SWIMMR Program)	PINTACUDA (STMICROELECTRONICS), Francesco
14:45	[30] Talk 3: Product Resilience Design Validation Beam Test	WEN (CISCO), Shi-Jie
15:05	[29] Talk 4: Radiation Experiments on AI accelerators: Current and Future Challenges and Opportunities	RECH (UNIVERSITÀ DI TRENTO), Paolo
15:25	[61] Talk 5: Soft Error Rate Test Methodology For Advance Process Nodes Under Neutron Beam At ChipIR	GUPTA (NVIDIA), Puneet
15:40	[32] Discussion with the audience
