

Diffraction and Low-x 2024

Tuesday 10 September 2024

Diffraction in pp and AA III (11:05 - 13:15)

time	[id] title	presenter
11:05	[282] Unexpected breakdown of collinear factorisation at leading twist in exclusive π^0 -gamma photoproduction due to Glauber pinch (180)	WALLON, Samuel
11:25	[230] Forward detectors in ATLAS and physics results (195)	LEWICKI, Maciej Piotr
11:45	[231] Central Exclusive Production with the STAR detector at RHIC (158)	ADAMCZYK, Leszek
12:05	[232] Challenging exclusive top quark pair production at low and high luminosity LHC (136)	ERNANI MARTINS NETO, Daniel
12:25	[259] Studies of low x physics and ultraperipheral collisions at LHCb (155)	SANTANA RANGEL, Murilo
12:55	[233] Discussion
