Spin physics I

Session | **Location:** Hotel Tonnara Trabia, Palermo, Sicily, Trabia (Palermo)

14:15–14:35

3D structure of the nucleon and polarization effects in QCD: an introduction (144)

Speaker

Umberto D'Alesio

14:35–15:00

The 3D structure of the nucleon in momentum space: TMD phenomenology (132)

Speaker

Marco Radici

15:00–15:20

The experimental spin program at RHIC (137)

Speaker

Ralf Seidl

15:20–15:40

Experimental Spin Program at Jefferson Lab (152)

Speaker

Jian-Ping Chen

15:40–16:00

Overview of the spin programme of COMPASS (167)

Speaker

Barbara Badelek

16:00
