

# XVII Conference on Resistive Plate Chambers and Related Detectors

## Monday 9 September 2024

### Production and QA (15:30 - 17:50)

time	[id] title	presenter
15:30	[20] Innovative Resistive Plate Chambers for the CMS Phase 2 Upgrade: Project Summary, Construction, and Quality Assurance	VANDENBROECK, Jules SHAH, Mehar Ali
15:50	[66] New Facilities for the Production of 1 mm gap Resistive Plate Chambers for the Upgrade of the ATLAS Muon Spectrometer	Dr FALLAVOLLITA, Francesco
16:10	[53] A new generation of RPCs for the ALICE Muon Identifier	GARETTI, Sara
16:30	[9] Mass production and quality control of CEE iTOF-MRPC	ZHOU, Yingjie
16:50	[67] Production and test of the RPC detectors for the large sectors of the ATLAS Inner Barrel (BIL) Phase II upgrade	CAMARRI, Paolo
17:10	[73] Mass production of RPC readout panels for ATLAS Phase-II upgrade and R&D on thin gas gap production at USTC	DU, Dongshuo
17:30	[71] Triplet assembly and certification of the new generation of RPC for the ATLAS phase-2 upgrade at Max Planck Institute	PROTO, Giorgia
