

Summer Student Session 2011

Student: Emelie Nilsson

Date and Time: Tuesday, 16th August from 10:15-10:30

Subject: “UA9 experiment: Beam collimation with bent crystals”

Biography

Brief CV:

❖ Field of Study:

Applied and fundamental physics

❖ Education:

BSc in Engineering Physics + studies at Fundamental Physics master program,
Chalmers University of Technology Göteborg, Sweden

❖ Project:

UA9 experiment: Beam collimation with bent crystals in SPS. Analyzing data from the experiment and simulating the experiment.
