CERN's role in WLCG Security Operations

Thursday 18 April 2024 10:40 (20 minutes)

The interconnected nature of the research and education community presents unique vulnerabilities susceptible to chained attacks. This presentation will explore how CERN is leading efforts to secure not only WLCG but also the broader R&E community. We will discuss various initiatives within EGI, ALICE as a Virtual Organization (VO) and at local sites.

Presenters: LUNA DURAN, Jose Carlos (CERN);   CUTRINA VILALTA, Pau (CERN)
