# GDB Introduction

Josep Flix [PIC/CIEMAT]

Mattias Wadenstein [University of Umeå]

GDB, 12th June 2024: **Hybrid meeting**

WLCG
Worldwide LHC Computing Grid

CERN

Meeting summaries

The co-chairs try to take notes for the meetings, but sometimes we are busy running the meeting the notes can possibly be lacking (**in fact they are!**):

https://twiki.cern.ch/twiki/bin/view/LCG/WLCGGDBDocs

- if **you take notes, please share them with us**, so we can merge the information and make the summaries more complete

- We **record** the sessions 🔴LIVE as we integrate the videos into the agenda as well

  → All of the video uploads are up-to-date

pre-GDBs/GDBs organization

Please consider <u>using</u> pre-GDB lots to organize topical sessions!

Let Mattias and myself know if you have topics to bring to the thematic pre-GDBs or GDBs

Also, let us know if you would like things to happen/improve!

You can email us or use the **GDB mattermost channel**:

New Tech. Coord. Board (TCB)

At the WLCG/HSF Workshop 2024 at DESY, a proposal to create a new **Technical Coordination Board** (**TCB**) was discussed:

Introduction to TECH strategy:
https://indico.cern.ch/event/1369601/timetable/#20240515.detailed

A forum to discuss/organize technical challenges and the requirements of the WLCG experiments and their computing infrastructure providers for the next 5 and 10 years

GDB will transition to this new TCB at some point, and a board of members will be created/nominated (similar to the GDB steering board)

The GDB is happy to help to ensure smooth transition to the TCB!
