

# WLCG/HSF Workshop @IJCLab (May 5-9)

Michel Jouvin

WLCG MB, 26/11/2024

# IJCLab in a nutshell

- IJCLab: Irène Joliot Curie Laboratory
  - Basic research laboratory covering HEP, NP, astrophysics & cosmology, theoretical physics, energy, health physics and accelerator physics
  - Created in 2020 as a merger of 5 labs (LAL, IPNO, CSNSM, IMNC, LPT)
  - 750 people, including an Engineering Pole of 200 people
  - Computing Departement: ~50 people, from operations to software development and data acquisition
- Always been an active member of WLCG (LAL before IJCLab)
  - GRIF site: operated jointly with 3 other labs (Irfu, LLR, LPNHE)
  - Operating a large academic cloud (15K cores) and a Ceph distributed infrastructure as part of University Paris Saclay mesocentre
  - Involved in several distributed computing initiatives in France: acting as a “bridge” between the HTC and HPC world, promoting some WLCG technologies (INDIGO IAM, Rucio...)

# Where is IJCLab?

- 25 km south-west of Paris
- Easy to reach by common transportation (RERB)
  - 45 mn from Paris “center”
  - 1h30 from Roissy airport
  - 45 mn from Orly airport
- Accomodations
  - Several options in the area
  - Many options in Paris

# Meeting rooms booked

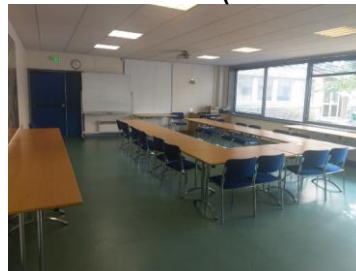

Main auditorium: 250 seats, Zoom

Small auditorium: 100 seats, Zoom  
(500 meters from other rooms)

Meeting room: 35 seats, Zoom

Meeting room: 30 seats

- More rooms if needed
- Better to book them in advance

# Workshop details

- Registration fees: 350€/person
  - Includes lunches, coffee breaks, welcome reception and social dinner
  - Is an early-bird option desired? If yes, +100€ for late registrations?
- Lunches: buffet organized at the main cafeteria
  - With good weather, space outside can be used
- Coffee breaks all served in the main cafeteria
  - 500m for parallel sessions hosted in Auditorium Joliot-Curie (small auditorium)
- Social event: hopefully at Musée d'Orsay (Paris), including a museum visit
  - Unfortunately unable to confirm it before beginning of March
- No goodies
- May 8 is holidays in France but no impact on the workshop

# Timeline

- Website
  - Logistics as soon as the Indico event is created: **who is doing it?**
  - Registration: requires budget approval by CNRS
    - Target: registration open early January
    - Registration will be managed by Indico but the payment will go through a CNRS service: CB payment possible
- Program: need a program committee
  - In common with HSF as it will be a join workshop like in DESY
  - **Who is in charge to launch it?**
