

Optimization of the High-Repetition-Rate Pulsed Electron-Driven Muon Beamline based on SHINE Facility

Fangchao Liu (Shanghai Jiao Tong University)

Preliminary Conceptual Design of Proton Charge Radius Experiment using Future Muon Beam at CiADS

Yuan Li (Shandong University)

Validation of the Geant4-based Calorimeter Acceptance Model in Fermilab Muon g-2 Experiment

Jun Kai Ng (Shanghai Jiao Tong University)

Beam Injection and Storage Study for the muEDM Experiment at PSI

Yuzhi Shang (Shanghai Jiao Tong University)

Preliminary Progress of Dark Matter Exploration with RPCs-based Muon Scattering Imaging System

Cheng-en Liu, Yiqing Feng (Peking University)

Positron transport system in MACE experiment

Guihao Lu, Shihan Zhao (Sun Yat-sen University)
