# EP R&D Software

---

Graeme and André

2024-06-19

## EP R&D Day

# Thank you all!

- The presentation was well received
- The posters were a really nice contribution to the day

# Hardware and Budget

- The procurement process for our AmpereOne CPU is a still delayed
  - No news yet
- Phase II hardware budget for 2024 is now available
  - Reconstruction Calorimeter purchase is underway/done - 15k
  - Simulation - 12k available for ML, 20k for AdePT
  - Reconstruction Tracking - 15k available
  - Analysis - 7k (cloud resources)
  - Frameworks - 18k
  - Core Libraries - 30k
- We strongly suggest that you advance on purchases this year!
- Giovanna has asked us to confirm spending commitments for 2024

# Personel News...

- A number of recruitments are underway for Phase II of EP R&D
- Be sure to keep André and Graeme in the loop!

# Today and Future Meetings

- Today we hear about the Turnkey Stack from Swathi
- For meetings for the rest of the year see the [schedule](#) below
  - 17 July - Paul, Reconstruction Tracking
  - 18 September - Juan, GPU Simulation
  - 16 October - Peter, ML simulation
  - 20 November - Mateusz, Heterogeneous frameworks
  - 11 December - Core Libraries kick-off? TBC
