

Joint 20th International Workshop on Hadron Structure and Spectroscopy and 5th workshop on Correlations in Partonic and Hadronic Interactions

Friday 4 October 2024

Friday Morning: Session 1 - "Pomegranate" hall (09:00 - 09:50)

time	[id] title	presenter
09:00	[27] Electron-Ion Collider in China	ZHANG, Jinlong
09:25	[20] QCD physics in the Future Super Tau-Charm Facility	LYU, Xiao-Rui

Friday Morning: Session 3 - "Pomegranate" hall (10:35 - 11:20)

time	[id] title	presenter
10:35	[45] Radiative correction for unpolarized SIDIS at COMPASS	BENESOVA, Vendula
10:50	[8] Measurement of A_{LU} in semi-inclusive production of π^+K^- , $K^+\pi^-$, and K^+K^- pairs in deep inelastic scattering with CLAS12	PECAR, Connor
11:05	[62] New measurement of transverse spin effects in hadron production from muon-deuteron semi-inclusive DIS at COMPASS	ASATRYAN, Siranush

Friday Morning: Session 2 - "Pomegranate" hall (11:20 - 12:50)

time	[id] title	presenter
11:20	[46] Phenomenological comparison of Lattice calculations of the Collins-Soper kernel	PUCCI, Patrizio
11:35	[53] Results for Collins and Sivers Asymmetries in K^0 -Production from 2022 COMPASS Data	HOGHMRTSYAN, Artur
11:50	[22] Preliminary HERMES results on the beam-spin induced polarization of Lambda and anti-Lambda hyperons produced in semi-inclusive DIS	NAZARYAN, Gevorg
12:05	[44] Transverse-Spin Dependent Azimuthal Asymmetries in COMPASS Drell-Yan data	NIEMIEC, Malgorzata Rozalia
12:20	[49] Inverse Kinematics Nucleon Knockout Measurements with a 45 GeV/c Carbon Beam	ATOVULLAEV, TIMUR
12:35	[52] Neutrino-nucleon Neutral Current scattering in the presence of Non-Standard Interaction	DEHPOUR, Mehran
