

# Joint 20th International Workshop on Hadron Structure and Spectroscopy and 5th workshop on Correlations in Partonic and Hadronic Interactions

## Tuesday 1 October 2024

### Tuesday Morning: Session 1 - "Pomegranate" hall (08:55 - 10:55)

time	[id] title	presenter
09:00	[39] J/psi production as a probe of gluon TMDs	PISANO, Cristian
09:20	[29] Probing the Partonic Structure through Target Fragmentation in SIDIS	TONG, Xuanbo
09:40	[25] Studying Drell-Yan at NLO with the Parton Branching Method	MOUREAUX, Louis
10:00	[9] Extraction of charged pion and kaon fragmentation functions at NNLO	Dr BERTONE, Valerio
10:20	[50] Polarized hadronization in Pythia	KERBIZI, Albi

### Tuesday Morning: Session 2 - "Pomegranate" hall (11:25 - 12:55)

time	[id] title	presenter
11:25	[64] TMD overview	BACCHETTA, Alessandro
11:55	[41] Upgrade of ART23: TMDs fit to SIDIS data	MOOS, Valentin
12:15	[5] Extraction of flavour dependence in unpolarized TMDs	DELCARRO, Filippo
12:35	[2] Understanding the large $k_T$ behavior in TMD PDFs	RAINALDI, TOMMASO
