

Joint 20th International Workshop on Hadron Structure and Spectroscopy and 5th workshop on Correlations in Partonic and Hadronic Interactions

Tuesday 1 October 2024

Tuesday Afternoon: Session 1 - "Pomegranate" hall (14:25 - 16:10)

time	[id] title	presenter
14:25	[47] Multi-messenger studies of nuclear short-range correlations	Dr PATSYUK, Maria
14:50	[42] Experimental efforts searching for the onset of Color Transparency	SZUMILA-VANCE, Holly
15:10	[6] SRC studies with proton probes	LARIONOV, Alexei
15:30	[3] Light-front densities of the polarized deuteron	COSYN, Wim
15:50	[7] Coherent gluon radiation in pA collisions: beyond leading-log accuracy	PEIGNE, Stephane

Tuesday Afternoon: Session 2 - "Pomegranate" hall (16:40 - 18:10)

time	[id] title	presenter
16:40	[19] Dark Sector physics: candidates and searches	Prof. DONATO, Fiorenza
17:10	[51] AMBER Antiproton Production Measurements: A Contribution to Dark Matter Search	GIORDANO, Davide
17:30	[17] Dark sector searches at the electron accelerator MESA	STENGEL, Sebastian
17:50	[16] The Beam Dump eXperiment at Jefferson Lab	BONDI, Mariangela
