

Joint 20th International Workshop on Hadron Structure and Spectroscopy and 5th workshop on Correlations in Partonic and Hadronic Interactions

Wednesday 2 October 2024

Wednesday Morning: Session 1 - "Pomegranate" hall (09:00 - 10:40)

time	[id] title	presenter
09:00	[21] Heavy- and light-quark mesons: A theory perspective	PILLONI, Alessandro
09:20	[68] Exotic heavy-quark states at LHCb and Belle (II)	RADEMACKER, Jonas
09:40	[54] QCD and Strange Baryon Spectrum	NIIYAMA, Masayuki
10:00	[34] Baryon Spectroscopy at GlueX	Ms AFZAL, Farah
10:20	[40] Overview of the 30 GeV/c Proton-Proton Physics Program at FAIR	RITMAN, James

Wednesday Morning: Session 2 - "Pomegranate" hall (11:00 - 12:30)

time	[id] title	presenter
11:00	[55] Accessing GPDs at the LHC	VAN HULSE, Charlotte
11:25	[67] Towards precise phenomenology of GPDs	SZNAJDER, Paweł
11:50	[24] Studies of Transversity GPDs in Exclusive Reactions	KUBAROVSKY, Valery
12:10	[1] First Measurement of Deeply Virtual Compton Scattering on the Neutron with Detection of the Active Neutron	HOBART, Adam
