

**Session Program**

**21-24 May 2024**

**Rencontres QGP France 2024 - Hôtel du Béryl,  
Bagnoles de l'Orne**

***Session 5***

## Thursday 23 May

15:00

### Session 5

#### Session

15:00–15:30

#### EIC physics and detector overview

**Speaker**

Carlos Munoz Camacho

15:30–16:00

#### Dilepton polarization as a signature of plasma anisotropy

**Speaker**

Maurice Coquet

16:00–16:30

#### Confronting jet-medium interactions in a weakly coupled QGP

**Speaker**

Eamonn Weitz

16:30–17:00

#### pause café

17:00–17:30

#### Picking up flow from Underlying Events in p-p collisions

**Speaker**

Mr Mohamed Berkat

17:30–18:00

#### Recent measurements of isolated photons cross section and their correlation with hadrons with ALICE at the LHC

**Speaker**

Gustavo Conesa Balbastre

18:30
