**The 4th EIC-Asia Workshop**

***UPC and EIC physics***

## Thursday 4 July

14:00

### UPC and EIC physics

**Session** | **Conveners:** Dr Dingyu Shao, Yifei Zhang

14:00–14:30

#### Recent results of dilepton photoproduction at STAR

**Speaker**

Chi Yang

14:30–15:00

#### Recent results of Jpsi photoproduction in UPC at RHIC

**Speaker**

Wangmei Zha

15:00–15:30

#### The recent measurement of two-photon interactions in ultraperipheral Pb+Pb collisions with the CMS experiment

**Speaker**

Shuai Yang

15:30–16:00

#### Tea Break

16:00–16:30

#### Parton shower algorithm with saturation effect

**Speaker**

jian zhou

16:30–17:00

#### eHIJING event generator for jet tomography in electron-ion collisions

**Speaker**

Prof. Weiyao Ke

17:00–17:30

#### Dihadron helicity correlation at UPC and EIC

**Speaker**

Prof. Shu-yi Wei

17:30
