

Triggering Discoveries in High Energy Physics III, High Tatra

Contribution ID: 40

Type: not specified

High p_T Direct Photon Production as a Probe of Nuclear Modification to disentangle Centrality Bias in Small System Collisions

Friday 13 December 2024 11:25 (25 minutes)

Presenter: ZHANDONG, Sun (HUN-REN Institute for Nuclear Research)

Session Classification: Talks of the participants (physics, trigger, electronics, detectors)
