

## **NUFACT 11 SPC meeting III**

### **Agenda**

- 1. Summary of local organizing committee work  
Abstract submission for WG and Poster  
see web site <http://nufact11.unige.ch/>**

**International Neutrino Summer School;  
good progress – thanks Debbie! see  
<http://dpnc.unige.ch/NeutrinoSummerSchool2011/>**

- 2. Round table discussion**
  - 2.1 Invitees**
  - 2.2 workshop questions to be sifted for the round table**
- 3. plenary talks (Ilias)**
- 4. Status from parallel session conveners**
- 5. NUFACT discussion (on last day?)**
- 6. summary of actions and next meeting**

## Round table discussion (I)

will take place in CERN auditorium after the parallel sessions in the afternoon of the first day.

16:00PM 1h CERN seminar

LHC and the neutrino paradigm **Goran Senjanovic agreed**

17:00 PM 1h 30m Round table discussion:

Future Neutrino Facilities in the Global Physics Environment (title OK?)

**confirmed:**

S. Bertolucci, S. Myers, K. Nishikawa, M. Spiro, J. Womersley, F. Zwirner  
+ J.Ellis chair

**not confirmed:**

Pier Oddone, reprompted,

Suzuki (ICFA) declined -- replacement requested **NB: NEEDED.**

T. Nakada (redundant with Zwirner?)

**Action: could Jim Strait re-prompt Pier?**

## Round table discussion (II)

**Dynamic of round table:**

**will issue list of questions to panel members.**

**Should be in the same 'line' as the workshop questions but appropriately worded for the specific use.**

**May I ask a few volunteers to formulate a number of questions to the panel and send them to myself, Ilias and John Ellis – or to whole list?**

(others can do it too)

**-- US**

**-- EU**

**-- JP**

**deadline: two weeks**

**in response we will ask the panel to prepare their own questions to address to the workshop, taking advantage of the fact that the RTD is at the beginning of the meeting**

## **NUFACT discussion**

**For those who have been to e.g. the Rencontres de Moriond you will have seated through a 1h30min discussion on how the meeting should be (or should not) be organized.**

**It is often the occasion for people to get things off their chest, sometimes in a surprisingly positive way – sometimes not.  
Plus: people who propose radical or intelligent changes are usually excellent recruits for the organization of the upcoming events!**

**It is an excellent way for a yearly meeting to not fall into decrepitude, engage its participants and reform its format dynamically.**

**Propose to have NUFACt discussion on Saturday morning  
– or earlier, e.g. thursday and place more plenary on saturday morning?**
