

Session Program

21-26 Sept 2025

**53rd International Symposium on
Multiparticle Dynamics (ISMD 2025)**

Hadronic final states in high p_T interactions

Mon Repos
Corfu, Greece

Tuesday 23 September

17:30

Hadronic final states in high pT interactions: (4)

Session | **Location:** Mon Repos, Corfu, Greece | **Conveners:** Giancarlo Ferrera, Chia-Ming Kuo

17:30-17:55

"What have we learned about the minimal conditions for observing flow-like signals, from e+e- to AA collisions?"

Speaker

Christopher Mc Ginn

17:55-18:20

Global extraction of proton Transverse Momentum Distributions

Speaker

Mr Lorenzo Rossi

18:20-18:45

Theoretical Uncertainties on the determination of the strong coupling from Z pT

Speaker

Thomas Cridge

18:45-19:10

Renormalon effects to the transverse momentum sensitive observables

Speaker

Dr Goutam Das

19:10

Thursday 25 September

09:00

Hadronic final states in high p_T interactions

Session | **Location:** Mon Repos, Corfu, Greece

09:00–09:25

First results of spin program of new generation sPHENIX detector at RHIC

Speaker

Dr itaru nakagawa

09:25
