Update of HEFT Note

This is to announce an update of [LHCHXSWG-2022-004](#) on the CDS.

The plots have been adjusted to account for the updates of the POWHEG event generator ggHH for the HEFT and SMEFT cases, see also JHEP 10 (2023) 086.

New references have been added to account for recent works on Higgs pair production (Refs. [55,60, 83, 94,95]). The note has been submitted to the new SciPost Physics Community Reports section.
