

**Session Program**

**4-8 Nov 2024**

**New Physics from Galaxy Clustering III**

***Short Talks 2***

Centro Congressi S. Elisabetta, Parma  
Parco Area delle Scienze 95

# Tuesday 5 November

11:45

## Short Talks 2

**Session** | **Location:** Centro Congressi S. Elisabetta, Parma, Parco Area delle Scienze 95

11:45-11:55

### **Simulation-based inference for higher-order galaxy clustering statistics**

**Speaker**

Beatriz Tucci

11:55-12:05

### **Optimal statistics to measure non-local primordial non-Gaussianities**

**Speaker**

Marco Marinucci

12:05-12:15

### **The effective speed of sound in the EFTofLSS**

**Speaker**

Caio Nascimento

12:15-12:25

### **Bayesian field-level inference of local primordial non-Gaussianity in next-generation galaxy surveys**

**Speaker**

Adam Andrews

12:25
