

Session Program

4-8 Nov 2024

New Physics from Galaxy Clustering III

Short Talks 3

Centro Congressi S. Elisabetta, Parma
Parco Area delle Scienze 95

Tuesday 5 November

14:30

Short Talks 3

Session | **Location:** Centro Congressi S. Elisabetta, Parma, Parco Area delle Scienze 95

14:30–14:40 **Unequal-time correlators**

Speaker

Eleonora Vanzan

14:40–14:50 **Cosmology with higher order correlation function of LSS**

Speaker

Francesco Spezzati

14:50–15:00 **Modeling halo statistics with the evolution mapping approach**

Speaker

Andrea Fiorilli

15:00–15:10 **EFT description of Lyman-alpha forest - halo cross-correlations**

Speaker

Anton Chudaykin

15:10–15:20 **How the trees lean: Toward Lyman-alpha forest skew spectra**

Speaker

Jamie Sullivan

15:30
