

Nikolai Hartmann

- Postdoc at LMU Munich, group of Thomas Kuhr (Belle II)
- Did PhD at ATLAS, SUSY 1-Lepton search
- Was involved in various software & computing projects
 - XCache tests and deployment for ATLAS (still running 3 XCache servers at LMU/LRZ)
 - interested in I/O, direct reading via xrootd, http
 - Worked on “columnar” analysis with ATLAS PHYSLITE
 - how to read in uproot, schema in coffea, analysis with awkward
- Working on various ML projects at Belle II (mainly through supervising students and teaching)
- I’m both fascinated, but also scared by dask
- Like to discuss about statistics, fan of pyhf
