Fit Exercise

Fit : Exercises

Fit a Gaussian distribution using

- 1. Analytical solution using likelihood method
- 2. Grid search method & (simplex method)
- 3. Using simple fitting command in "root" software

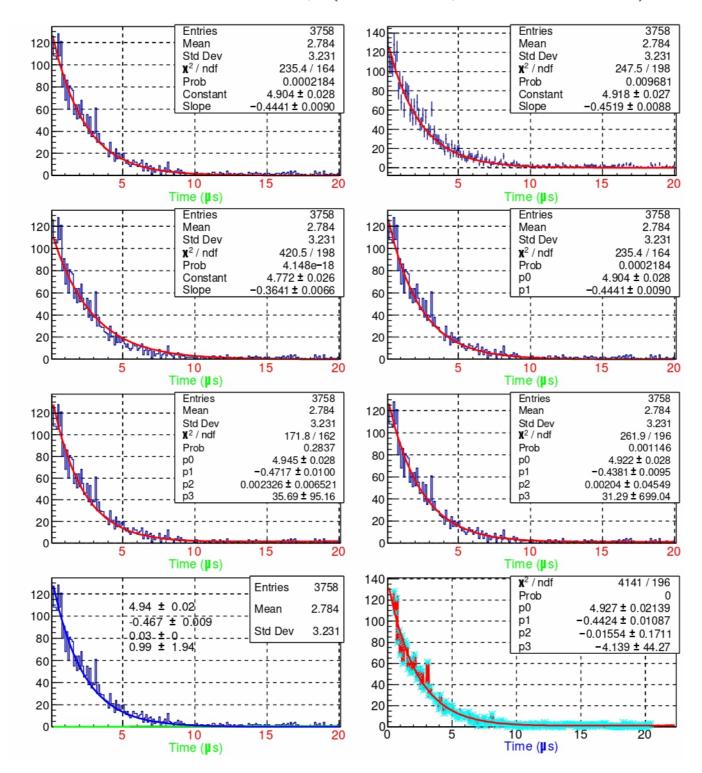

Numerical m

Fit Exercise

Fit : Exercises

Fit using root software (TMinuit) :

This is data from muon lifetime expt (one of the expt in hardware session)

Numerical methods

Fit Exercise

Fit : Exercises

- 1. Fit excluding a part of the histogramme
- 2. Fit two independent histogrammes together.
