Universität Freiburg

# Discussion items

---

Status of project: I assume everything is fine, mile stones achieved, hardware invest has been/will be spent

Annual report due by 30. April: Günter Q. and myself will provide first draft hopefully by 22 April  
Shall we include list of mandates, publications, talks, .. in this report? Need your input.

Funding for period 2024-2027: Did not get any information from PT-DESY yet

GridKa –OB representative: Uni Tier-2 centres shall have their own representative  
(up to now all Tier-2 represented by V. Gülzow for many years, now DESY has its own representative)

NHR-integration: Application for period 4/25-3/2026. 3 applications by Aachen, Göttingen and Freiburg  
when to put them? Content? ....

Next ErUM-Data Call: Expect application deadline 1 October 2024.

No experiment specific projects. KET+KHuK groups would be sufficient.

Inclusion of other communities, partner from private sector beneficial

Sustainability will be a keyword.

How many compounds in the area of FIDIUM topics? How to organize us?

(Federated compute, federated storage, federated analysis facilities)
